

108, Boulevard St-Germain

DIRECTION

Sir,

I just read your very interesting article
in Van Nostrand's Engineering on Mr.
Edison's electric railway.

I should feel very much obliged
to you if you can indicate to me
at what date and in what paper
Mr. Edison has first spoken of
the transmission of force by means of
electricity.

~~You~~ If you can send me those papers,
I shall be very glad and shall send
you their price by return of post.

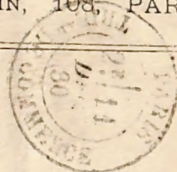

Believe me, Sir, yours most sincerely

Antoine Breguet
